PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate specializing in Data Science with strong skills in Python, SQL, Django, and data analytics. Experienced in building full-stack web applications, interactive dashboards. Passionate about solving real-world problems through data-driven solutions and continuously learning new technologies.

EDUCATION

B. Tech. Computer Science & Engineering
GITAM (Deemed to be University)

2023 - Present
Rudraram, Sangareddy Dist.

Intermediate
Deeksha Jr College

2021-2023
Miyapur, Hyderabad

10th Class
Vikas The Concept School
Hyderabad

2021
Bachupally,

TECHNICAL SKILLS

Programming Languages

- Python
- SQL
- C
- R

Artificial Intelligence & Machine Learning

- Deep Learning
- Machine Learning
- TensorFlow
- Scikit-learn
- Data Preprocessing
- Model Evaluation
- Feature Engineering

Data Science Libraries

- Pandas
- NumPy
- Matplotlib

Databases

- SQLite
- SQL

Web Development

- HTML
- CSS
- Django

Developer Tools

- Git
- GitHub
- VS Code

Soft Skills

- Analytical Thinking
- Research Mindset
- Problem Solving
- Team Collaboration
- Adaptability
- Communication

PROJECTS

Smart Inventory Management System

- Developed a centralized system to manage inventory, suppliers, customers, purchases, and sales.
- Automated inventory updates after every purchase and sale to ensure accurate stock tracking.
- Implemented invoice generation and transaction management for streamlined business operations.
- Built an analytics dashboard to monitor inventory, sales trends, and low-stock alerts.
- Added search, filtering, and pagination features for efficient inventory management and navigation.

E-Commerce Sales Analytics

- Developed an end-to-end e-commerce sales analytics system using Python, SQLite, and SQL.
- Generated realistic sales datasets using Faker to simulate real-world business transactions.
- Analysed revenue, customer behaviour, product performance, and sales trends through SQL queries.
- Automated data processing and created insightful visualizations using Pandas and Matplotlib.
- Generated business reports to support data-driven decision-making and performance analysis.

Personal Portfolio Website

- Designed and developed a modern, responsive personal portfolio website using HTML, CSS, and JavaScript.
- Showcased professional profile, skills, projects, certifications, resume, and contact information.
- Implemented smooth scrolling, typing animation, scroll reveal effects, and a mobile-responsive navigation bar.
- Integrated GitHub, LinkedIn, and email links for seamless professional networking.
- Enabled users to view and download the resume and access certification documents.
- Built a clean, modular, and responsive interface focused on performance and user experience.

Citizen Safety and Emergency Coordination Platform (*In Progress*)

- Developing a full-stack emergency response platform using Django, React, Flutter, and PostgreSQL.
- Building secure REST APIs with role-based authentication using Django REST Framework.
- Implementing one-tap SOS alerts, real-time notifications, and guardian escalation workflows.
- Developing web and mobile applications for residents, guardians, volunteers, and security personnel.
- Integrating Firebase, email, and SMS services for real-time emergency communication.
- Designing a scalable, production-ready architecture with incident tracking and analytics dashboards.

EXPERIENCE

Prompt Engineering Intern

YAL.AI (EchelonEra Technologies Pvt. Ltd.) | May 2026 – Present

- Applied prompt engineering techniques to improve understanding and accuracy in data annotation tasks.
- Designed and refined prompts to resolve ambiguities during the annotation process.
- Used AI tools to validate and enhance the quality and consistency of annotated data.
- Collaborated with team members to ensure adherence to annotation guidelines and project requirements.
- Researched effective prompting strategies to optimize AI-assisted annotation workflows.
- Gained practical experience working with Generative AI and Large Language Models (LLMs).

CERTIFICATIONS

Introduction to Data Science (Cisco Networking Academy)
